This is the choice we’ve decided to share with the facilities in the V4A Network. Slow tourism means that you can take as much time as you need to enjoy the beauties your holiday has to offer; it means devoting attention to details and that you are guided through a journey of discoveries around places, cultures, experiences and local products while respecting the environment and your needs. We’ve been working tirelessly for a long time with many tourist facilities that share our dream: “Holidays for all!”. We want to share our dream with you too, and this is why we personally inspect all the facilities in our network to ensure “first-hand” information and to make it available to you; because you deserve to be the undisputed star of your holiday.

OUR SYSTEM

We assign a score from 1 to 5 for “six categories of needs”. This system has been conceived to help you choose, but don’t forget that we NEVER award accessibility certificates. We know full well that everyone has their own essential needs when it comes to enjoying a nice holiday. The Find out more! button allows you to get further information, and if you can’t find what you’re looking for, contact us, we’ll answer directly. Hospitality is a virtue rather than a business opportunity as all the facilities in the V4A Network know, which is why they’ll accommodate you meeting all your needs, so as to offer you Accessible Hospitality.

Silvia and Roberto
Travelling is a right nobody wants to give up, not even when they have difficulties or limitations. Travelling on a business trip or for leisure are two vastly different things, but when it comes to planning, they’re one and the same!

Here are some tips:

1. Draw up a **checklist of both your companions’ needs and yours**, including all those needs only you are aware of and that can make the difference between a nice holiday and a nightmare. Prepare an “in case of emergency” **folder** with a list of pathologies, medications, and emergency numbers.

2. Identify “essential” and “desirable” items in your checklist. There are things you can’t possibly do without, such as the right bed height, a bidet shower next to the toilet, and everything only you know about. And don’t forget to check if you can buy your **favourite products** during the trip or if you need to bring supplies for the whole holiday.

3. Decide which aids are to travel with you, check if they will be accepted on the means of transport and at the place of stay; consider how you will pack and transport them on your trip. If you use an aid for mobility and autonomy you must know all its features: how large it is, how much it weighs, how high it is, how long it is; whether it is foldable; if it is manual or battery-powered, and in that case which kind of battery it uses (dry or lithium) and its power. Also, consider whether it may be better to rent it rather than shipping it.
4. Always keep the **operating manual of your aid** handy, as it may be required to get on the plane, ship, cable car or ferry.

5. If you hold a **certificate of disability** issued in your country, always keep a copy of it in your wallet; in Italy, there is still no documentation attesting to your disability rights, so you should use that one.

6. **Study the procedures well** if you have to take a train, a plane, or a ferry. For example, a code is assigned on the plane that identifies the type of assistance to be provided to each person: WCHC, WCHS, WCHR, BLND, DEAF, child, etc. Knowing them means receiving the right assistance.

7. **Look up information online** and don’t hesitate to **ask for confirmation** from customer service, it’s best not to take unnecessary risks. **Check** if there are Apps through which you can get updated information and assistance, and stay in touch.

8. **If you don’t think you can handle it, or the first few times** you’re travelling you don’t feel confident enough, **contact a travel agent**. They are **professionals** and know full well how to assist you; plus, **you will always have an expert to turn to** for any problem.

9. When you are looking for a holiday destination it is always **difficult to find reliable information**. **Do not just trust accessibility statements**. Inquire about things that are essential to you and, if necessary, send your checklist directly to the hotel/resort and ask for confirmation.

10. **Flexibility and determination** are vital equipment for every traveller. You need to improve and refine them with experience
and then, if you’re up to it, share your expertise to help other people.

11. You are a **consumer** and you want to pay the appropriate price for the quality of the service you receive. This is the goal of all consumers, and of course, you never turn down a good discount.

12. **Check first** whether you qualify for any discounts and avoid the “somebody told me” or the “that’s the rule” approach. If a rule applies, have the references to it with you so you get what you are entitled to.

Let us know about your travel habits, share your experiences with us and our community... and remember our motto: “Holidays for all!”
Village for all classification*

A different colour for each region

*Scores are assigned based on qualitative and quantitative criteria on the equipment supplied for each need typology; for instance, absence of architectural barriers, internal operational procedures, recognitions and certifications issued by boards and organisations. A numeric value is assigned to each criterium and the sum of these values determines the classification.
High-quality facilities in our network for the following categories:

**Food Allergy**
for their attention in their menus to allergies, intolerances, dietary restrictions, etc.

**Mobility**

**Perception**

**Senior Citizen**
for their attention to senior citizens’ needs

**Destination for All**

**Accessibility Web**

Facilities highly suitable for pets

The “Village for All Awards” are prizes given to companies who have demonstrated great dedication to improve their ability to provide Accessible Hospitality. Choosing who wins is a matter of objectivity and merit based on a complex score system directly derived from V4A’s patent software V4AInside, which is used to survey the facilities belonging to our network. Our system collects objective data in order to classify every facility according to diverse needs in terms of accessibility; in addition, it assesses structural improvements and elaborates how to strengthen services to cater for every Guest’s needs.

From the hinterland to the coast, there are more than enough spots where to admire art and nature; the region is a treasure chest of opportunities for open-air slow tourism. Trips to lakes and sources, natural parks and wildlife oases; or a slow-paced yet adrenaline-filled walk on the bridges of Sasso Castalda. Adventures in the little lanes of hidden borghi to discover atmospheres, smells and tastes of a great cultural historical heritage: houses perched on the mountains, Arabic and Byzantine areas, stairways and piazze with grand buildings in local stone, churches and castles – spellbinding landscapes.
Matera

Wandering around the lanes and caves, climbing and descending to admire perspectives and landscapes may be the most fulfilling way to visit this town. The rupestrian component of the old town plan with its southern *palazzi* is remarkable. From the old town you can easily reach the Belvedere, the starting or ending point from where to marvel at the visual spectacle that embraces the Sassi cave complex. A visit to the Parco della Murgia Materana, where nature and art merge among archaeological sites and rock churches, complements unique and evocative excursions, on foot or by bicycle.

CALABRIA

With its enviable natural heritage, the region is full of opportunities for slow but curious tourism. From sunny Costa degli Dei, excursions lead to bucolic places that climb up from the crystal-clear sea to the mountains, such as the walk from the Joppolo seafront to the Monte Poro pine forest. Urban trekking, on the other hand, can lead to ancient Saracen mill roads, convent ruins, natural caves or ghost towns that exude the stories and legends of an area with a history stretching back thousands of years. Like an enchanting mermaid lounging at the foot of a 16th-century tower or a volcano.
Scalea

Halfway between the sea and the mountains, Scalea is a hillock overlooking the Tyrrhenian Sea and the Riviera dei Cedri, protected by Mount Pollino. Strolling through its tangle of little streets, you’ll admire prestigious architectural gems – churches and palaces in the mediaeval borgo, but also breathtaking views, as in Piazza Maggiore de Palma or Largo Cimalonga. Amidst fragrances, candied fruits and spirits, you’ll explore the delights of the surrounding areas, with its tourist resorts and mixture of nature, relaxation and well-being. Musical and theatrical performances provide a fitting end to the day.

EMILIA ROMAGNA

A region to explore far and wide, following specific passions or themes. Art cities, *borghi*, seaside and mountain resorts; remains of ancient villages, early Christian churches, mediaeval castles and Renaissance fortresses; itineraries along ancient pilgrimage routes on foot or by bike; evocative locations from film sets (from Pasolini’s Bologna to Fellini’s Rimini and the land of Don Camillo and Peppone) and itineraries through Verdi’s legacy of homes, theatres and museums. Like the region’s beautiful waterfalls, many attractions will refresh the eager tourist.
Bellaria-Igea Marina

A starting point for cycling tours, the seaside resort combines relaxation, parks, sport and family fun. One of the main ways to experience slow tourism is by motorboat, which leaves from the small port of Bellaria-Igea Marina and follows a variety of itineraries along the coast, even at night. Along the Uso river, a cycle-pedestrian path equipped with rest areas leads to as far as San Mauro Pascoli, and to off-road trails of about 20 km on foot or by mountain bike. You can also fish in peace in the Gelso Park lake.

Bologna

It’s an excellent idea to explore the city on foot: from the Pincio staircase and the Montagnola park to the metropolitan cathedral of San Pietro; from the imposing Piazza Maggiore to the Basilica of San Petronio; then a stop at the bookshop in Via de’ Musei and a tour of Italian singer-songwriter Lucio Dalla’s house. The view from the Asinelli tower is worth its 498 steps; then rest your eyes looking out the small window over the Moline Canal. Take the train to other nearby hiking trails and cycle through the countryside among cultivated fields and farmhouses.

WELLBEING IS THE WATCHWORD

All rooms present high-quality beds for the greatest comfort. The atmosphere in the contemporary-styled rooms feels warm and cosy thanks to parquet floors. **Six rooms are provided with fully equipped toilets** suitable for people with motor disabilities.

Relax and enjoy the privacy of the soundproof areas. After a long day spent working or sightseeing in Bologna, indulge in the [Spa centre](#) with sauna and steam room, whirlpool, relaxation area serving fresh fruit and organic herb teas – a pleasure for all your senses!

There are four equipped rooms for meetings; all ensure high-standard technological efficiency. The [Green Meeting Hall](#) is the jewel in the hotel’s crown, it’s entirely made in wood and eco-sustainable materials, and its air conditioning system is powered through renewable energy.
FIRST-CLASS SERVICES

Regional and traditional dishes are served at the newest Ristorante Papylla, in a convivial and informal atmosphere. The restaurant is open every day for both lunch and dinner. Be it for an aperitivo, a quick lunch or a nice relaxing dinner, the restaurant will meet any requests with passion. International buffet breakfast is served here.

A new addition to our menu is our gourmet pan pizza with its light highly digestible dough and clear traceability – prepared with 100% “active supply chain” grains from the Paolo Mariani Mill in Barbara, in the province of Ancona.

Using this technique, the pizza becomes incredibly crispy on the outside while remaining soft on the inside. Each slice is then garnished with raw materials rich in flavour and aroma, in a surprisingly delightful blend of textures.

Ferrara

Nella città “avventurosa” dell’Ariosto, dove il pane profuma l’aria e le due ruote sfrecciano incessanti sui ciottolati, il turista assapora angoli artistici e culturali passeggiando lungo le suggestive vie medievali o sulle mura rinascimentali; ascolta le testimonianze del passato nei caratteristici musei; ammira la grande pittura quattro-cinquecentesca fino alla contemporanea; s’interroga al Museo Nazionale dell’Ebraismo... E se il centro cittadino non rende sazio l’avid viaggiatore, nei dintorni attendono le nobili Delizie della corte estense, svago dei duchi, vestigia di una ricca epoca.

An **improvement plan** aimed at tourist Destinations that show great dedication to providing Accessible Hospitality to tourists through international work methods and standards; and that genuinely care for the wellbeing of their citizens and their accessibility needs.

A **distinction** for tourist Destinations that want to increase their visibility on the national and international market of accessible tourism, to obtain not only financial gain but also recognition for their commitment to accessible, responsible, and sustainable tourism.

A **promotional tool** for tourist Destinations in national and international marketplaces that now require accessible tourism, but lack a common reference framework, adequate skills, and reliable information to address these requirements in Italy.
Accessible Hospitality is a virtue rather than a business opportunity. A barometer of civilisation in the tourist destinations that people choose for their holidays.

A varied land with evocative landscapes that touch the Alps, the hills and the Adriatic Sea. The best way to get to know it is by bicycle: hills, marshy waters, villages, meadows, and ancient borghi provide the backdrop for itineraries full of history. The cycle path from Buja to Udine is a dirt track that can also be travelled on horseback or on foot all year round. From Aquileia to Mount Lussari, a 200-kilometre-long route crosses the Friuli region in all its morphological richness, with dirt roads, country lanes and mountain paths.
Lignano Sabbiadoro

From the iconic Terrazza a Mare, pedalling at a moderate pace, you can follow a ring-route that skirts the sea, the river and the lagoon – it’s the cycle path that, through different panoramic points, reaches and runs along the coast of Lignano Riviera and Lignano Pineta. You can also discover the fishing valleys and the seaside villages by taking the bike from the beach of Lignano Sabbiadoro and loading it onto a flat-bottomed boat; and from there appreciate beauty in nature with a visit to the Punta Verde Zoo Park or the Marano Lagoon, the Foci dello Stella regional nature reserve.

Pordenone

A small town that is every bit as good as larger cities, with more artistic views, remains dating back to the Middle Age and the Renaissance, traces of the Gothic and Venetian periods; the churches, the Duomo and the Palazzo Comunale, the piazze, the frescoed façades of the buildings. Crossing it on foot, hours pass by as peacefully as a river does, like the Noncello, once a thriving river port, now a natural oasis of dense vegetation. Tradition is still alive in the old cotton mills and ceramic factories. The nearby towns of Spilimbergo and Sacile are imbued with history.

LAZIO

In the name of slow, religious and gastronomic tourism, the region of Lazio offers a variety of walking paths: from the Via Francigena to the Cammino di San Benedetto and the Cammino di San Francesco. Throughout the different legs, quaint little borgi pop up, such as Sermoneta, Anagni, Sutri... Scenic landscapes and gardens, such as the magical Ninfa Garden, and other unique itineraries unfold before tourists from Tuscia to Sabina. Countless agriturismi call for a relaxed country life, with good food, arts and crafts, horse riding, picnics and fishing.
Roma

The capital is full of opportunities; rich in history and art, it’s the starting point for all kinds of itineraries, including nature trails dating back to the Renaissance to the first half of the 20th century. You can walk through the city’s neighbourhoods to discover urban transformations, archaeology, street art, momentous events in the history of architecture and art, cinema... Each route (from Garbatella to Trastevere, from Tor Pignattara to Centocelle) invites you to immerse yourself in a unique atmosphere. The same goes for the bike experiences to explore the Appia Antica, the Lungo Tevere and the river Aniene.

Tarquinia

Considered one of the four metropolises of southern Etruria, Tarquinia is a favourite destination for history enthusiasts: the archaeological site of the Ara della Regina Sanctuary (the largest known Etruscan temple), the Necropolis and the National Archaeological Museum are inexhaustible sources of information. Nature lovers will enjoy this destination, too. It’s only a short distance from the Tyrrhenian beaches, with charming countryside, and a panorama enriched by the Monti della Tolfa overlooking Monte Argentario and the Island of Giglio.

LIGURIA

The region is a great reservoir for outdoor adventures. Its most unspoilt natural areas, the Cinque Terre, offer an extensive network of paths suitable for all types of travellers – there are around 48 routes linking these borghi to the coast with exceptional scenery. You can also explore the cycling path of “Riviera dei Fiori” coastal park; the forty kilometres on the track of the Milan-Sanremo; or the path that follows the Gulf of Tigullio... but it is also an interesting experience to tour Genoa by bike, riding on lifts and funiculars.
Deiva Marina

Green slopes that gently roll down to the sea and to mysterious inlets; trekking paths carved out of the salt routes, Deiva Marina is characterised by the coexistence of rock and water with lush Mediterranean vegetation. The most fascinating itineraries include the one leading to Framura or Moneglia alongside terrace cultivation; not far from the coast there’s the Mezzema-Incisa-Deiva or the Deiva-Vigo-Castagnola; or the more challenging itinerary of the Passo del Bracco that leads to Monte S. Nicolao, whose well-designed bends are also suitable for two-wheelers.

Offida

Situated on a rocky spur between the Tesino and Tronto valleys, the borgo of Offida is pleasant to visit, both for its tranquillity and for its largely medieval buildings. Its fountains are a gem of artistic and architectural value, particularly the Merlettaie fountain at the entrance – Offida is renowned for the art of bobbin lace (merletto in Italian). Tourists can experience this by strolling through the streets of the city centre to the sound of the wooden spindles tapping rhythmically under the skilful hands of the women who are constantly working on this craft.

APULIA

800 km of coastline make Apulia a popular destination for beach lovers, but this region also includes endless plains, art cities and folkloristic historic borghi, olive groves and unparalleled flavours. The locality boasts a variety of landscapes: the hinterland is characterised by expanses of olive groves and vineyards, and then gives way to the white, sandy beaches known as Marine di Ugento. Hikes in the area lead to the karst gullies of the so-called gravinelle. Ugento is also an Art City of Apulia, while its “Litorale di Ugento” Regional Nature Park is an important wilderness area where to explore canals and basins, practice birdwatching, beach- and cave-trekking. SARDINIA

Santa Teresa di Gallura, Baia Sardinia and Stintino are some of the destinations worth visiting in this region of unspoilt nature. Well-known locations alongside less-travelled routes, where you can savour the local authenticity. For example, Mamoia, with its Museum of Mediterranean Masks and its typical cheese; an excursion along the Rio Flumineddu on the Gorropu Canyon paths among aromatic plants; Posada, an enchanted municipality in the Baronia region; Capo Comino with its old lighthouse and its white beach and turquoise sea.
Palau

A tourist resort in Gallura, awfully close to the Costa Smeralda, Palau is the starting point for ferry and boat excursions to the Maddalena Archipelago. TUSCANY

Historical, religious and scenic itineraries are the perfect opportunity for tourists wishing to explore the region in any possible way. On foot, the Via Francigena, the Via Senese or the Via Romea will enrich your experience. By bicycle, from the Viareggio seafront to the borghi of Pietrasanta and Forte dei Marmi you can admire the sea view. The Grand Tour of the Maremma, surrounded by greenery, opens up immense views of the countryside. A perfect combination of horse riding and Tuscany is achieved in the forests of Casentino, Garfagnana and the Chianti countryside.
Castiglione della Pescaia

Traditionally a seaside resort, Castiglione della Pescaia features a series of attractions that offer a multifaceted perspective on the town. Besides the beaches and promenades by the Port to enjoy the sea breeze, or along the characteristic alleyways of its oldest areas, there are other paths that were once religious ways walked by the Saints who have left their mark on the religious traditions of the area. Following such enthralling itineraries is a means of taking part in the history, legends and art of these areas.

Florence

You should design a detailed plan to better enjoy a city of such high cultural significance: Florence should be experienced in an organised way, not to miss the endless series of awe-inspiring sights greeting tourists. You might then choose a tour of the city centre in the oldest quarter near the Duomo; or follow an itinerary to discover the Italian Renaissance between the Bargello and the Uffizi; then the Oltrarno, San Miniato... and of course explore the many paths combining faith, art and nature through Dante’s homeland, such as the Via Francigena and the Via degli Dei.

Piombino

Piombino is one of the first towns on the Costa Etrusca, jutting out into the sea and facing the islands of the Tuscan Archipelago. Its centre is a living testament of mediaeval and Renaissance vestiges; the spirit of Leonardo da Vinci “lingers on”, leading tourists on a tour of the places he studied. The area boasts farms and wineries where you can taste excellent products. It takes just a short time to get to other lovely centres such as the Archaeological Park of Baratti and Populonia, Suvereto and Campiglia Marittima.

Local cultures and traditions blend with the beauties of nature. You’ll learn everything about agriculture and livestock breeding; Alpine farms and farmsteads have their doors open so you can get up close and personal with animals, products and herbs. The region offers plenty of opportunities for soft mobility with its long cycle paths. Lesser-known yet unique destinations can be reached by train, bus and cable car. There are lots of free or themed walks: among the memories of the First World War or in the midst of the earth Pyramids... of Segonzano; on the ancient Roman roads Via Claudia Augusta or Via Romea Germanica.
Arco

The scent of olive trees, mild temperatures and fresh air envelop tourists who come to this little town. Nestled in the north of the Altogarda plain, in the valley of the Sarca river, this area is a pleasant place to stay, whether you enjoy climbing, going to the beach or a nice walk from the fortified old town to the beautiful Castle, an ancient fortress with towers dominating the surroundings. A cycle path connects Arco to Lake Garda, and cycling along it, almost touching the water, you can get to town without too much elevation gain.

Riva del Garda

After a slightly windy morning spent in the waters of Lake Garda, the most perfect way to spend the afternoon is a nice stroll along the lakefront from the centre to Forte San Niccolò. The tour continues to the quaint village of Torbole, enjoying the cool shade and the benches or simply renting a bike. Another possible scenic route is through the Ponale road, which connects Riva to Val di Ledro. Alternatively, you can go on an excursion to the Varone waterfall and visit a winery on the way back ending the day on a high note with an *aperitivo*.

UMBRIA

Peaceful trips in the “green heart of Italy”: Umbria welcomes the desire to enjoy culture and the environment with slow curiosity. At Lake Trasimeno, a 160 km route crosses the most important borghi in the area; the paths of Perugino in the lands of the Marquis are a series of itineraries between Città della Pieve, Paciano, Panicale and Piegaro; the Valnerina, with its evocative cycle path, the former Spoleto-Norcia railway line, leads to the Marmore Falls. This region will enchant you with its atmosphere, through fortresses and abbeys, and inspire the rhythm of your steps.
Corbara

Corbara, in the municipality of Orvieto, is known for its artificial lake, part of the Tiber River Park, a protected natural area in Umbria where you can observe rare birds and catch shots of fallow deer, as well as go carp fishing. A walk along the banks of the river leads you to karstic inlets called Gole del Forello and the caves of speleological interest, Bella and Piana. The area is characterised by olive groves and vineyards, whose products can be tasted in the local agriturismi.

VENETO

The region offers many suggestive itineraries that can be walked or explored by bicycle, camper or canoe. Through the Euganean Hills Regional Park, in just one day you can visit waterways, villages and fascinating historical centres: from Arquà Petrarca, Monselice, Este to Lozzo Atestino and Teolo up to Torreglia, Montegrotto and Abano Terme. You can reach villas, castles and religious buildings by bicycle. In the Adriatic seaside resorts, in Venice, in Chioggia, you can take a ferry from one lido to another and discover all the characteristics of Veneto.
Abano Terme

The thermal waters can be the last stop on a day of urban discovery or nature trekking. From the sanctuary of the Madonna della Salute in Monteortone, for example, it takes about two hours to climb its namesake hill for a view over the monastic complex; or from Monterosso, through Villa Bembiana and its monumental park, you can follow a trail far from the city noise that wends its way through archaeological findings and a beautiful panorama.

DIVE TO RE-EMERGE

The thermal water, the extraordinary richness of this place of wellness immersed in the green of the Euganean Hills, has an especially important value in facilitating the activities that involve the musculoskeletal system of our body. In the water, the body becomes lighter: movements are looser, muscles relax, pain is reduced; rehabilitation exercises can be carried out with less effort, favouring a gentle and gradual recovery of muscular activity. The chemical composition of thermal water also effectively and naturally helps overcome chronic inflammation.

Doctors, physiotherapists and personal trainers follow the guest from an integrated point of view, thus maximising the results. Plunge into the water to heal, to find yourself, to regenerate... and re-emerge.

Bibione

The tranquillity of an extraordinary green heritage meets the liveliness of a perfectly serviced seaside resort that is one of the most visited in Italy. To discover the nuances of Bibione, the best way is to follow the evocative cycle routes that wind their way from the wide golden beach, Italy’s first smoke-free beach, to the most diverse urban and natural landscapes. An oasis of relaxation and adventure, characterised by a long tradition of hospitality, for each guest and their family to live their own perfect holiday.
The Passeggiata Adriatico is an incredible cycle-pedestrian path, unique in Europe, that runs parallel to the beach of Bibione. Starting from the lagoon, you can cross the town and reach the lighthouse on the river Tagliamento. The beach varies in width up to 400 m, it alternates stretches of unspoilt coastline and equipped areas with distanced beach umbrellas, restaurants, play areas, and rescue and first aid stations. Along the route, the scent of the sea, EMAS-certified and 30 times Blue Flag site, mingles with that of the pine forests and Mediterranean vegetation, revealing spectacular views. The passion for cycling in Bibione has no limits: 24 tracks and 115 km mapped on Google Maps.
It only takes a few minutes to reach new routes and landscapes, thanks to the innovative boat pass services offered by Bibione: a new way to explore the area, connecting Bibione to Lignano Sabbiadoro and Brussa, allowing visitors to take their bikes with them.

The XRiver crosses the picturesque Tagliamento alpine river, one of the rivers with less human impact in Europe, to reach the Friulian coast. On the opposite tip of Bibione, where the lagoon with its characteristic casoni (typical fishermen’s huts) stretches out, you can experience XLagoon, a real boat trip through islets and reeds to reach the enchanting natural landscape of Vallevecchia.
From the coast to the hinterland, Bibione is a pleasure for all the senses. Beyond the pinewoods you can find the countryside and its farms, with its locally sourced products and characteristic vineyards – genuine delicacies that can be tasted in Bibione’s restaurants or directly in the farms along the cycle paths. But the hinterland of Bibione also offers great emotions to nature lovers, who, in addition to rare plants and flowers, can encounter many animal species.

In particular, the Valgrande fishing reserve offers an uncontaminated territory, rich in green areas and lakes, ideal for bird watching and for spotting wild fallow deer, wild boar and horses.

COMFORTABLE, CENTRALLY LOCATED SUITES

Spend your holiday in the “heart of Bibione”. From the suites of Costa Rica Bibione start accessible paths and walkways that lead to every area of the resort.

Everything is close, let’s talk about micro-distances: the central avenue is just 50 metres away; within 100 metres you will find a supermarket, ice cream shops, restaurants, pizzerias and much more; the beach is 150 metres from the suites; the thermal baths only 250 metres; the pool is just next to you.

We want all our guests to live a holiday experience around their suite: everything is convenient, and every place is easy to reach. For us, holidays are real only if no one feels uncomfortable. Otherwise, what kind of holiday would that be?
SUITE IN THE GREEN, FACING THE BLUE

Your apartment? A suite embraced by nature and **with a low environmental impact**. Your alarm clock? The chirping of birds. Your daily soundtrack? The rustle of plants and the lapping of waves. No barriers between you and nature: **everything is accessible**, even to wheelchair users. Your suite, close to all services, is in an exclusive position: in the greenest, quietest and most intimate area of Bibione right in front of the sea.

We want everyone to live the regenerating experience of a holiday in close contact with nature and, why not, with sport. Here at Costa Rica Bibione we have eliminated any kind of barrier between you and the green and the blue... now it’s up to you: **would you like to play** and practise **sport without barriers**?
SUITE WITH PRIVATE ACCESSIBLE SPA

Are you dreaming of a highly relaxing holiday? How about a beautiful suite with a private accessible spa? You can find any aid you need to move around without difficulty. In the spa you will find:

- shower with Turkish bath and chromotherapy;
- Finnish sauna and bio-sauna;
- whirlpool.

For us at Costa Rica Bibione, offering inclusive hospitality means making every service available to everyone. For this reason, even our suite with private SPA has been designed to be accessible to all our guests, even to those who move in a wheelchair. Everyone has the right to the same relaaax!
PRIVATE BEACH, NEARBY AND ACCESSIBLE

Forget about long and tiring paths to get to the beach: Costa Rica Bibione is so close to the sea that you can hear the sound of the waves.

Our walkways take you directly to your beach umbrella on the shoreline without encountering obstacles; guests with reduced mobility can book for free a JOB wheelchair to enter the water. Anything else to know? Yes: the beach is smoke-free; there are designated areas for smokers.

We love the sea and we love the idea of offering each of our guests a beach holiday free of any kind of barrier.

That’s why we often stop to ask ourselves how we can improve our services to make people’s lives easier and reduce efforts to a minimum.
ALLERGY? NO WAY!

Dust, dog hairs, cat fur. Does just reading these words make you sneeze? Get this: we’re allergic to allergies. That’s why we keep them away. How? In five steps:

1. After pets leave our accommodations, we clean and **sanitise the suites** according to strict protocols;
2. We use **cleaning products** with long-lasting, non-aggressive **bactericidal action**;
3. We have **hypoallergenic mattresses**, pillows and sofas that we sanitise with specific treatments to eliminate dust, dust mites and anything else that makes you sneeze;
4. We said **no to carpeting** and chose easy-to-clean ceramic and stoneware instead;
5. In each suite you will find a **fully equipped kitchen**, so if you have food allergies or intolerances you can cook your own meals as you wish.

PET FRIENDLY SUITE AND SERVICES

If you want your holiday to include your four-legged friends, you’re welcome here. In the pet-friendly suites pets will find comfortable kennels, blankets, a welcome kit. Moreover, your pet will be able to go to the Pluto beach with you; to make himself beautiful at the grooming spot and to relax in the SPA (yes, SPA!) in our store “Come Cane e Gatto”; and finally take nice walks in the nearby green areas.

When we tell you that Costa Rica Bibione is pet-friendly, we do not mean only that animals are tolerated: here they are loved and welcomed. An anecdote that we like to tell: once we hosted 9 border collies in one suite!

If you love communing with nature, outdoor life, campsite atmosphere and you want to relax without renouncing to the most modern comforts, then Villaggio Turistico Internazionale is the perfect choice for your holiday in Bibione. A short walk from the city centre, set in the green of the pine forest, it is the right mix of relaxation and fun.

A fabulous water park with 2,000 m2 of heated pools, water games and a spa path with whirlpools. Every day you will have the opportunity to undertake new activities together with the entertainment team; to explore one of the many cycle paths through the hinterland; to practise sports or simply to sit back and rest on a sunbed in the quiet of a summer afternoon.
RESTAURANTS & DELICIOUS FOOD

Fill your holiday with good food, a glass of fresh Prosecco, a menu attentive to every need. In our restaurants you will discover the quality and tradition of the Mediterranean cuisine and the flavours of Veneto. Many of the products you’ll find at the buffet are homemade and locally sourced: the baked goods, desserts and ice cream are made in our kitchens.

The restaurant “Al Villaggio” adheres to the programme “Alimentazione Fuori Casa” of AIC (Italian Celiac Disease Association) to offer you the security of a gluten-free menu and all the pleasure of good food. You will also have countless occasions for an aperitivo or a coffee with friends, a drink by the pool or a quick snack. If you prefer to prepare your own meals, you’ll find everything you like in our supermarket.
STAY & DREAM

Choose the accommodation unit you prefer, there are many different possibilities!

The villas are the perfect balance between the bustling life of the village and the quiet atmosphere you can breathe in the pine forest. The apartments are located in a strategic position to make use the services of the village; you will feel like being in a hotel but with the advantages and fun that only a campsite can offer. And our mobile homes are the perfect solution for an open-air holiday with the luxury and comfort of a home.

If you love to spend light-hearted holidays, we have finally created a variety of additional services and restaurant packages, because we believe that holidays are made to discover a new place, but also to rest from your routine. Give yourself a break.
FUN & RELAX

Enjoying your holiday means having fun and being able to do whatever you want without any troublesome thoughts. In our village you can keep fit, give it a try at dancing, yoga or water sports.

Why should you limit your desire to move, stimulate your mind and get excited? The list of activities that adults, teens and children can do is almost endless, as well as the fun that will fill your evenings with lights, colours and laughter.

A highly qualified, young, and dynamic staff is ready to get you involved with its energy and to make you the star of many activities.

This year will be a surprise for everyone indeed; we will personally experience a renewed, guest-friendly territory. The entire community of Cavallino Treporti have made the true miracle of once again offering uncontaminated landscape, clean seawater, large beach, paths hidden within the lagoon and into the pinewoods, which are the preferred habitat of protected flora and fauna. We are a hospitable community completely accessible to any guest. We offer real and innovative solutions for the best type of holiday: in contact with nature. Nature gives us everything and, together with you, we want to preserve and reward it. The outdoor tourism we propose is constantly improving: in the facilities, more and more refined in domotics and in the choice of fully ecological sustainability; and in the environment, consisting of wide spaces and services that offer entertainment, quality food and wine, and every product for daily needs. All in total accessibility and distancing. Our tourist offer is the best and safest you can find in Italy and Europe during the pandemic. It’s our gift to you!

Moreover, you can enjoy the AquaMarinaPark, an area of 15,000 m² with 10 swimming pools for children and adults. The services also include 5 restaurants, 8 bars, 2 homemade ice cream shops and 17 stores for everyday shopping.
A UNIQUE TERRITORY TO DISCOVER!

The Cavallino Treporti coastline is a strip of land between two waters: on one side, the Adriatic Sea with its gently sloping seabed; on the other, the lagoon with its typical vegetation, brackish water and salt marshes, the ideal habitat for seagulls, egrets, herons and flamingos. Unique scenery suspended between two perfectly balanced ecosystems.

A holiday in our Camping Village is an ideal starting point to discover the picturesque islands of the lagoon: Murano famous throughout the world for the production of blown glass; Burano with its colourful houses and lacemaking laboratories; Torcello with its ancient Venetian-Byzantine ruins and the fascinating cathedral. And just a few minutes by motorboat, the charm of the lagoon’s pearl: Venice.

A GREEN OASIS, AN IMMERSION IN CLEAN AIR AND SEAWATER

Over fifteen thousand tall trees surround Union Lido, on the Venetian coast. The village overlooks the Adriatic Sea and extends over 1.2 km of wide, patrolled beach, ideal for children and sport-lovers.

The island of Cavallino, home of open-air tourism just a stone’s throw from Venice, bathed by the Venetian lagoon and the river Sile, is a sustainable coastline suitable for relaxation, contact with nature, and walkers or cyclotourists.

Part of Cavallino’s pinewood is preserved by Union Lido with a four-hectare nature trail where you can see many species of birds, hares and squirrels. Green is the colour that stands out among the pitches of different sizes, private bathrooms and entirely Made in Italy accommodation and in some cases with recycled material.
ACCESSIBILITY AS IN HOLIDAY FOR ALL

Our facility’s standards of accessibility comply with the V4A Network and are certified by the German agency ADAC as a further proof of our effort to create inclusive holidays.

Not only do we offer accessible cabins in the toilets and paths on the beach with raised chairs, but more than thirty accommodation units are fully accessible to people with disabilities or walking difficulties.

And a fantastic 400 m² gym with Technogym equipment for everyone. There is also a wellness centre with nine thalassotherapy pools offering various beauty and physiotherapy treatments.
CULINARY ART FOR ALL NEEDS

In a kaleidoscope of culinary offers among fifteen bars and eight restaurants, Union Lido stands out for the great attention to all needs and food disorders or intolerances.

The menus include meat, fish, gluten-free (included in the AIC programme), Venetian, vegan, vegetarian and Asian dishes. You can eat in our pizzerias, homemade ice cream parlour, pastries and French crepes shops, fast food shops.

Even diabetics will find the ice cream that suits them, as well as a special offer of local vegetable and fruit.

We also offer a convenient delivery service directly to your pitch, hotel or hotel villas.
AN ECO-SUSTAINABLE TERRITORY IN THE LAGOON

Cavallino, the home of outdoor tourism just a stone’s throw from Venice, offers over 40 km of cycle-pedestrian paths. An absolute novelty this 2021 season is the bike path overhanging the lagoon. There will be 5 km out of 7 of track that directly overlooks the lagoon of Venice, a UNESCO heritage site, in an uncontaminated environment with breathtaking sunsets that will accompany the bike rides of thousands of tourists who love slow routes in the midst of nature.

From the centre of Cavallino you arrive at Treporti and then reach an area of timeless eternity Lio Piccolo with Ie Mesole and Saccagnana. Enchanting places where the pink flamingos have found their ideal habitat. Along the way, you cannot miss a visit to the batteries that once defended Venice from enemy incursions.

Lido di Jesolo

Lido di Jesolo is a key tourist destination, offering visitors both natural and cultural beauty. From the seafront to the pine forest to the hinterland you can discover traces of its ancient history. Think of the ancient walls with findings from the early Christian era or the Civic Museum of Natural History with almost fifteen thousand artefacts. The countryside, crossed by the Sile and Piave rivers, is the ideal backdrop for bicycle excursions; there are at least twelve itineraries in the area thanks to a dense network of cycle paths.

Mestre

Mestre is not only a preparatory stop for a visit to Venice, but also a crossroads to reach different destinations such as Treviso, Padua, Castelfranco, Vicenza. With its quiet piazza guarded by the clock tower, Mestre can be admired for its industrial archaeology, its ancient churches, and the nature exploding in San Giuliano park, the largest in Europe. From here you can take a cycle-naturalistic path that runs along the lagoon and leads to the small port of Passo Campalto. A cycle-pedestrian path connects via Torino to Forte Marghera and via San Marco.
San Giuliano Venice is located within one of the largest parks in Europe, certainly the most suggestive. It overlooks the Gronda Lagunare – the area between the Venetian Lagoon and the mainland – commanding a magnificent view. It offers entertaining and sport activities for all ages and abilities. Many opportunities for families with children, for seniors, for people with disabilities or special needs. Our equipped area has 100 pitches with all the technical and sanitary services aimed at excellent hospitality, such as washing machine and dryer. From San Giuliano Venice it is easy to reach Venice, the old town is only 6 km away.

For years Legnolandia has been designing and creating inclusive play areas complying with the design criteria of Play For All, the European initiative that aims to follow the parameters of accessibility for the safety standards of playgrounds.

Almost all Legnolandia projects are designed to create playgrounds that can be enjoyed not only by children with disabilities, but by children with all types of motor and cognitive abilities, without having to adapt any game or to ask help from adults. Barrier-free shared spaces to allow toddlers and their families to build relationships and promote social inclusion even in outdoor spaces.
The partnership with V4A aims to create innovative and tailored solutions that allow Italian and international tourist resorts to offer their guests a truly accessible **plastic-free** environment: Legnolandia’s production is based on the use of wood, the renewable raw material par excellence and capable of infinite regeneration. In an effort to cut CO$_2$ emissions, the company offers a range of plastic-free products, a first step toward producing 100% renewable constructions.

The historic centre of San Marino is considered a world heritage site for its palace, the basilica and Mount Titano on which it stands. A good starting point to admire it is the square of the cable car that offers one of the best views. The short route along it also offers a beautiful view of the Adriatic Riviera. There are many paths to discovered here, namely the Passo delle Streghe, in stone, delimited by small walls and parapets overhanging the crest of the rock; or the Cammino del Titano, about forty kilometres long. Exploring the caves is also a particularly impressive experience.

The region has eight national parks. The most important one is that of Plitvice Lakes, in the hinterland, with winding streams and dense forests; then the park around the Krka waterfalls. There are many islands with heavenly beaches and crystal-clear waters. The area includes the Salinas of the tourist centre of Nin, used for the production of salt. On the coast there are other towns rich in history. There are various paths from the Adriatic to the mountains; the best places for excursions are Učka, the National Park Risnjak and North Velebit.
Fažana

A clear light accompanies the explorations through Fažana, whether for a stop on the beaches with crystal-clear water, or in the pine forest in search of refreshment, or on the cycling paths on asphalt and white roads. Located on the west coast of Istria, the town has a cultural and natural heritage to discover. A pedestrian path leading to Pula allows you to admire a green oasis populated by herons and wild ducks. Don’t miss the Brijuni Archipelago, which can be reached by renting a boat in Fažana.

Hopefully, Italians will decide to spend their summer 2021 in their own country or in neighbouring countries. The pandemic has taught us that our peninsula is dotted with beautiful and welcoming beaches, and therefore it is not necessary to take a plane to go diving on the other side of the world.

We want to make our compatriots understand how important it is to support Italian tourism businesses in these times of crisis. We like to summarise it with the concept of “Italian holidays”, which means choosing a beach among the 7,500 km of wonderful and varied coasts in our peninsula, and especially one of the approximately 10,000 equipped beaches that enrich them.
Mondo Balneare is a leading authority for tourists who visit the Italian coastal resorts. This is thanks to numerous services designed for those planning a beach holiday: a booking system for Italian equipped beaches; news, trends and tips for summer holidays; the tourist companion to the most important coastal destinations.

For this reason, our project for the summer of 2021 is to promote “Italian holidays” in equipped beaches, surrounded by comfort, relaxation and quality services.
There is no one way to travel just as there is no one way to plan your holiday. In order to meet tourists’ multiple needs, we have been collaborating for a long time with travel agencies and tour operators that have demonstrated over the years to work with professionalism, competence and dedication on Accessible Hospitality.

They know how to respond to your needs, assist you in the booking process to find the most suitable place for you and your family or friends. Counting on a reliable partner to provide you with guarantees and insurance coverage for any unforeseen event means that you can get the security and protection that sometimes, alone, you simply cannot have.

**BUT A HOLIDAY IS ALSO SOMETHING NEW**

Living an experience guided by local professionals who live the city, the *borgo*, the history is not always easy when you have a motor, sensory or cognitive disability.

For this reason, we have selected qualified, professional guides, who, in addition to having great experience, have also followed training courses to guide groups with disabilities, whether motor, sensory or cognitive. Discovering a monument, a museum or the history of a city can become a real pleasure to be shared with everyone.
Flumen Viaggi is an agency from Friuli, traditionally known for group travel: cultural itineraries, food and wine tours, and bicycle trips, both day and multi-day, in Italy and abroad. With great satisfaction, for several years now, we have dedicated ourselves to promoting our region with ideas for slow tourism in Friuli-Venezia Giulia and in the nearby Veneto, an area little known to the tourist market, but with an amazing mosaic of opportunities, to live unique experiences between history, tradition, spirit, nature, food and sport. Another of our strong destinations is Tuscany, which we help you discover through sustainable and accessible itineraries.
Our latest challenge are the **multisensory journeys** that we organise both in Italy and abroad. These are exciting experiences, recommended to "slow" travellers who are not in a hurry and want to feel part of the places they visit, focusing on the small authentic local realities.

In our multisensory journeys all the senses are involved, from sight to hearing, from touch to smell, and, of course, taste. With this formula, **travelling becomes possible even for blind or visually impaired people or people with motor disabilities**. The emotional impact is thus amplified leaving you with cherished memories. We take care of every detail of the trip because we want you to have a unique experience that meets all your needs.

GO4ALL
By Go World

Go World is a holding company that represents a group of companies involved in tourism, real estate, tourism consulting and documentary production. It involves about 15 companies, both in Italy and abroad, and includes highly qualified people and services to carry out ambitious and innovative projects in the above sectors, including the Go4all brand dedicated to all travellers with disabilities.

The goal of the programmes offered by Go4all is to allow all people with physical and visual disabilities to move around the world as they wish, thanks to a meticulous study of the best accessible routes and facilities.
The choice of our destinations is the result of the experience gained by our consultants with disabilities, and the research done together with our local correspondents who are experts in this tourist sector. Our aim is to eliminate physical, cultural and moral barriers and allow everyone to travel.

The destinations proposed range across different continents, leaving room for innovative proposals designed to make the trip as comfortable as possible. In addition to many cultural tours, we also offer more active experiences such as sensory trekking and scuba diving for people with physical and visual disabilities.

Most itineraries are designed for individual departures to meet specific needs.
Bologna: the Wise, the Fat and the Red city! We are ready to guide you to discover all aspects of the city, its province and its region! Le Guide d’Arte (Art Guides) were born as an association in 1994 with the aim of showing and enhancing the regional heritage. The team is composed of highly qualified personnel, we are all art historians or foreign language graduates. In 2021 the association became a social cooperative thanks to the growing interest in itineraries including more and more accessible tourism, because we are convinced that beauty should reach everyone. The challenge is great, Bologna is a mediaeval city, but our enthusiasm can lead the way!
The itinerary planned by Le Guide d'Arte range from the most classic to the most unusual and curious. We want to reveal our region under its many fascinating profiles: historical, artistic, but also musical, motoring, and gastronomic!

We can create personalised itineraries based on different interests and we are ready to accompany you in your search for art with visits to exhibitions, or by organising different types of workshops for you.

Emilia-Romagna has a lot to offer and we want you to enjoy it to the fullest, offering not just a trip but an unforgettable experience!
Ravenna Friendly Guides is a brand that identifies a group of nine independent tour guides who are particularly sensitive to the issues of accessible and inclusive tourism.

They have many years of experience in the tourism sector and differentiated skills, plus dedicated ongoing training, which allow them to offer cultural and excursion itineraries aimed at making the experience accessible and enjoyable for everyone.

They operate mainly in the area of Ravenna and Romagna, creating personalised itineraries with great attention to any different need, but also planning emotional and relational experiences that allow, besides historical and artistic explorations,
a more authentic contact with places and people. The visits are thought to people with psycho-physical, intellectual, sensory disabilities, people with reduced mobility, elderly people, families with children of different ages, small groups. They also include the support of tactile and technological aids that encourage greater interaction and understanding in order to better appreciate monuments, museums and architectural beauty.

Ravenna Friendly Guides are able to provide all the assistance necessary to organise visits according to different interests and requests in order to guarantee the best enjoyment.
BestVeniceGuides is an idea of PromoGuide Venezia, a non-profit association founded in 2015 with the aim of bringing together the tour guides licensed in Venice under a brand of quality and excellence, and to promote their professionalism.

The guides of our Association are able to offer services in sixteen foreign languages, their professionalism is supported not only by a competent preparation, but also by a sincere and deep love for the city in which they work. For this reason, BestVeniceGuides are particularly attentive to suggest a sustainable and inclusive idea of tourism, which respects the needs and specificity of the city and of those who wish to discover it.
Our dedication to accessible tourism developed after a proposal by the Veneto Region, which organised a series of talks on the subject, catching the interest of our Association. We felt the need to acquire greater professionalism in this field by starting a project with the Italian Union of the Blind and Visually Impaired of Venice and CERPA Italy Onlus (European Centre for Research and Promotion of Accessibility), which led to specific training courses for guides. BestVeniceGuides has therefore decided to expand the offer with new routes accessible to people with disabilities, contributing to the culture of hospitality and inclusion, promoting accessible tourism practices, and strengthening the quality and differentiation of the offer of inclusive tourism experiences in Venice.
